Full Stack Developer with a background in Pharmacy, which has provided me with strong skills for team work, team management, problem-solving, and effective communication. Specialized in Front-End and Back-End development.

I have extensive knowledge of Agile methodologies, GIT, data structures, algorithms, and CSS frameworks. My experience includes developing Front-End and Back-End applications using technologies such as Javascript, React, Redux, Redux Toolkit, Express, and Sequelize. I am a dedicated and collaborative individual, results-oriented, and committed to providing creative and efficient solutions in software development . I am excited to contribute to the growth and success of your company through my passion for programmi ng and my experience in the field.

English Proficiency: Intermediate-Advanced.

PROJECTS

Full Stack Web Developer - Dog App   **Jul. 23**
Academic Experience - Henry Bootcamp

The application provided an interactive and user-friendly experience, offering detailed information about di fferent dog breeds, allowing users to sort and filter results, and even create their own dog breed using a form.

Responsibilities:
- Integrated a functional form that allowed users to create their custom dog breeds and add them to the database.
- Enabled sorting and filtering functionality for breeds by weight, name, origin, and temperaments.
- Conducted thorough testing to ensure the proper functioning of all application features.
- Optimized application performance by identifying and addressing potential frontend and backend performance issues.
- Researched and applied best practices in web development to ensure project quality and efficiency.

Technology used:
- Frontend: React, Redux, CSS Modules
- Backend: Express
- Database: PostgreSQL and Sequelize.

PROFESSIONAL EXPERIENCE

Pharmacy Employee   **oct. 16 - abr. 23**

Red Persce S.A - Farmacias Red, leading pharmacy chain in the pharmaceutical sector in Córdoba, Argentina.

- Team Management: Ability to lead and motivate a team, delegate responsibilities, and ensure a positive work environment. Shift leader since August 2021.
- Problem Solving: Ability to identify and address issues and challenges in the daily pharmacy operation, ensuring an effective and efficient response.
- Customer Service: Ability to provide excellent customer service, meeting their needs and addressing their concerns effectively.

Back-End Developer   **jul. 23 - ago.23**

Bookbuster - Argentina.

During my internship at Bookbuster, I had the privilege of working as a Back-End Developer, contributing to the development and enhancement of the company's web application. I collaborated with a passionate team, using key technologies such as Node.js, Express, PostgreSQL, and Sequelize to build a strong MVP that significantly improved the product's functionality.

Key Achievements and Responsibilities:

- Led the implementation of a payment gateway using MercadoPago, facilitating secure and efficient transactions on the platform.
- Developed an intuitive and efficient administration dashboard that allowed complete control over the system and internal processes.
- Contributed to the understanding and application of crucial concepts such as basic authentication, ACID integrity, transactions, and data normalization.
- Participated in exploring cloud solutions, investigating the potential of technologies like Firebase and Cloudinary for future scalable implementations.
- Worked closely with the team, creatively tackling challenges and addressing complex issues with innovative solutions.
- Contributed to a positive and collaborative work environment, sharing knowledge and learning from my peers.

My internship at Bookbuster provided me with a valuable opportunity to enrich my understanding of essential technologies and fundamental concepts in Back-End development. This experience not only strengthened my passion for programming but also boosted my personal and professional growth.
